

Choose a mirror with a frame that partners well with other finishes in the room. Get this sophisticated look with the 'Metal Framed' round mirror in Antique Brass from West Elm.

*create a vision* Are you looking to bounce more natural light around a room, expand on a pretty outdoor view or simply decorate a blank wall? The beauty of a fabulously designed mirror is you can easily achieve all three of these goals. Elizabeth McClenaghan, buyer at Zanui, explains: "Mirrors reflect light, which then creates an illusion of depth and space - perfect for making any room feel large." And the look of the moment? Elizabeth says a striking round mirror, about 80cm in diameter, hung on the wall above a console, sideboard or fireplace is a popular trend to consider.
